# Welcome to The Refinery

Whether you know exactly the look you are going for or you need help discovering a look that is right for you, The Refinery is dedicated to giving the time and care to your project to create a style that is uniquely you.

Hello! I'm Cathy, a fabric nut with an eye for color. I am a two-time cancer survivor, wife to a wonderful husband, mother to four amazing kids, and lover of all things Auburn! I'm a former banker turned retail shop owner who's been passionate about design, décor, and DIY projects for years. I grew up a seamstress's daughter and my mother not only made all of my clothes, but raised me to be involved in creating our home décor. I love finding color combinations that work and liven up a space. Now that my kids are all grown, it is a new season for me. I wanted to take my passion for refining furniture and home décor out of my own home and use it to help others design pieces they would love.

Coming from a big family, we had a surplus of furniture that we were not using. It just made sense to make these dated yet functional pieces into something affordable and unique. Why buy an expensive, mass produced piece of furniture when you could let us take your well-worn items and make them into something fresh and one of a kind? We transform what is in reach into character pieces with a touch of paint and hard work. We would love to work with you and make your well-loved pieces become something you will love even more.

If DIY is your passion, then Blackberry House Paint is for you! We love it! It is so easy to use. And we paint it on everything!

Blackberry House Paint is a water based, acrylic blend paint with custom pigments and a selection of additives that give our paint maximum coverage, superior grip, true depth of color, self leveling features and layering capabilities.

When applied with a quality brush, Blackberry House Paint will dry free of brush strokes, cutting the time it takes to sand and distress significantly. Blackberry House Paint produces a very low level of airborne sanding residue, allowing you to work indoors on a protected floor surface. It is designed to be wet sanded for ease of use, but can also be dry sanded with little effort.

A thorough clean with a degreaser is the only prep necessary before painting. Since this is a water based paint, it must be sealed to aid in the curing process if you are going to use your project right away. After an 8-10 day cure time without sealer, this paint is self sealing and will cure to a hard finish.

- Chalk free • No VOC (volatile organic compounds)
- No pre-sanding or stripping necessary
- Superior adhesion
- Purely pigmented for true colors
- Dries quickly and free of brushstrokes
- Easy to distress wet or dry
- Minimal airborne residue
- Can be used indoors

User friendly and affordable

32 oz \$32.00

16 oz \$20.00

6 oz \$ 12.50

Waxes available for \$15.00

Natural, Barely Brown, Dirty

Water, Rough it Up

## Inspiration

Choosing colors or a style can seem overwhelming to some if you're not sure where to start. Do you like classic, traditional, rustic, vintage, farmhouse, shabby-chic, dressy or casual sort of style? Where is the piece going in your home? What colors do you see in that space? Are there fabric colors you would like to bring out to add life to that space? Are there other pieces of furniture that you would like to match? Almost anything can be used for inspiration for your piece: a piece of fabric, an image you've seen in a magazine or online or a photo of a piece of furniture you love. All of these can help us provide you with a custom look that is all your own and perfect for your home.

Contact us or visit our shop for a personal consultation to choose your look for your special furniture pieces. Bring in a swatch of fabric, a throw pillow, a wood sample with your paint color, or even a picture that catches your eye so that we can match or coordinate your color selections and find a finish that is right for you.

# Custom Painting

## What We Do

Once we have determined your look for your project, bring your furniture pieces to our shop and our creative magic begins.

Each of our painters has been trained by the developer of the paint. We understand the best features of our paint and have been trained to maximize its qualities to produce a professional look. We thoroughly clean your piece and make any minor repairs that might be necessary. We utilize painting, staining, layering, waxing, and distressing techniques to provide the look you desire. As your project progresses, we can send pictures for you to review to be sure we achieve your goal. We welcome your involvement to ensure your satisfaction with your new treasure! Turn around times may vary, but generally our project turn around time is 2 weeks.

# Pricing

Your particular project may be as simple as a coat of paint to revitalize your piece or a complex process of layering colors and waxes to give it a bold new look. Pricing varies with the size of the piece and the finishes chosen. Our pricing philosophy is reflective of techniques involved to achieve your desired style and our commitment to providing a quality finish for your project.

A 50% non-refundable deposit is due prior to commencement of work and includes a paint and supply fee. Paint and supply fee includes all paints, primers, sealers, sandpaper, wood filler, cleaning solvents and any other supplies needed to complete the project. Supply fee does not include new hardware. Once work has begun, changes in paint color and/or overall design are subject to additional fees. The estimated completion date is an estimate only and work may take longer due to weather and/or repairs that may be needed. Repairs needed found after commencement of work may be subject to additional fees. Remaining balance is due immediately upon completion of work. Furniture will not be released until balance is paid in full. The Refinery does not offer furniture pickup or delivery. If circumstances warrant, delivery fee will be \$25 for each way. For a quote for your project you can call or text pictures of your project to 334-220-8925.
